SCHOOL NOTES

The grades four to twelve, inclusive, will be given a series of standardized tests next week. The idea of these tests is to determine the efficiency of our schools in comparison with other schools; the tests being tests of the grades and not of the individuals. The tests were standardized by Teachers College, (New York) and University of Illinois. A preliminary test in language which was given Monday of this week showed nothing for the grades 10 and 12 that is at all complimentary. Grade 12 tied with one of the lower grades in the grammar school.

Grade seven made the best showing by far.

It is felt that applying these standard "yardsticks" will enable the teachers to get at weaknesses before it is too late.

The entertainment by Miss Dopheide, which was the second number of the Lyceum course, was excellent. She gave "The Moneymakers" by Kline in which seven characters were presented in a masterly fashion. Her variety program which followed was delightful to all. Attendance was poor. It seems the guarantors of the course will be required to pay liberally to make up the deficit.

The cinema showings of the much famed gentleman whose activities consists of a diminutive mustache, large feet and an affected walk continues to draw the crowds; while the things that cultivate our better nature die out for lack of support.

The grade school pupils have improvised a "giant stride," some swings, swinging rings, trapezes and other play equipment. Providing play facilities for so many pupils on so small space is quite a problem. Figure on it for yourself: the number of square feet per pupil. There'll be wonder, then, why accidents are so few.

To accommodate those who want to visit out of town during Thanksgiving week, there will be no school session on Friday following Thanksgiving Day. Washington's Birthday, then, will not be treated as a holiday, which will "make up" the days lost.

WOMAN IS APPOINTED TO MAGISTRATE'S BENCH

Mayor Hylan of New York City has appointed Mrs. Jean H. Norris, assistant secretary of Tammany Hall and co-leader with George W. Olvane in the Tenth Assembly District, to serve on the magistrat's bench. Mrs. Norris is the first woman in the State ever appointed to sit on a judge's bench, either in criminal or civil court. She has been identified with Tammany Hall even since women were enfranchised, and was vice-chairman of the campaign committees of Supreme Court Justice Robert L. Luce and Senator James A. Foley, candidate for Surrogate.

During the suffrage campaign in New York state Mrs. Norris was a prominent worker. She is president of the National Women Lawyers' Association and a member of the New York County Lawyers' Association. She was educated at Fordham University and studied law at the New York Law School.

In making the appointment Mayor Hylan requested that Mrs. Norris be assigned to the Women's Court. The appointment is for a thirty days' period in place of Magistrate Breen who is ill, but it can be extended from time to time.

COAL STRIKE CONTINUES UNSATISFACTORY

NEW YORK, Nov. 18.—The withdrawal of the strike order by officers of the United Workers of America in accordance with the mandate recently issued by the United States District Court at Indianapolis has thus far had very little effect in the direction of increased coal production, the number of tons of coal produced throughout the country on Nov. 10 being 2-9—10 per cent greater than Nov. 3 when the coal strike order was in full force and effect. Late reports state that there

seems to be no disposition on the part of the miners in the Central Competitive Field to return to work and that in other fields only a very few miners have taken advantage of the opportunity to resume work afforded by the cancellation of the strike order; and it is now generally predicted that there will be no considerable break in the ranks of the strikers until a favorable agreement as to wages and hours is signed by the operators.
